Good afternoon Chris,

As requested, attached are the RCRA Biennial Report forms for 2019. These are not 100% finished but are pretty close, with just a few pieces of info needed.

Don't hesitate to call me at [Nonresponsive based on revised scope] with any questions.

Thanks,

[Redacted]

Hi [Redacted]

Why did START copy the manifests? As you mentioned below, the manifests were already entered into the tracking log prepared by Joanna.

Please submit the forms which START filled out as mentioned below. As the OSC, I should have received this information from you

Thank you
Chris

Hi Christine,

[Redacted] spent those hours collecting copies of Waste Manifests and filling out the forms for the RCRA Biennial Report for Shiloh.

We were asked in the field per the TD SOW to take the manifest tracking log sent to us by Joanna McCauley and help submit the Biennial Report.

Feel free to give me a ring with any further questions.

Thanks,

From: Wagner, Christine <Wagner.Christine@epa.gov>

charged 16 hours during this period to this assignment which is reported as "office various". I was not contacted by you describing the work to be performed, nor did I receive any type of deliverable for this work.

These charges are disallowed pending further information. As the Site lead, I expect you to coordinate with me as the WAM on any work being conducted offsite.

Thank you
Chris
